T'ENG KUEI, F.R.S.A., style Po Yeh, was born in Kiangsu, China, 1900. Early during his boyhood he commenced his painting lessons and after ten years' of rigid training on the fundamentals and on brush strokes, began to use his fingers which became his favorite medium of expression.

He was an instructor of art from 1927-28 at the University of Washington in Seattle, U. S. A., at the same time studying Western art, aesthetics and sculpture there. From 1929-33 he carried on research studies at Harvard University and in Europe on an Exchange Fellowship of the Harvard-Yenching Institute. After his return from abroad, he was made professor of art at Yenching University.

His works in both painting and sculpture are widely exhibited in many museums and galleries and are included in many important collections all over the world. The success of Mr. T'eng art may be attributed to his deep and powerful visualization from which springs that "Mental-composition" creative of his remarkable swiftness of execution. Vitality in expression and simplicity in form are the aims of his art.

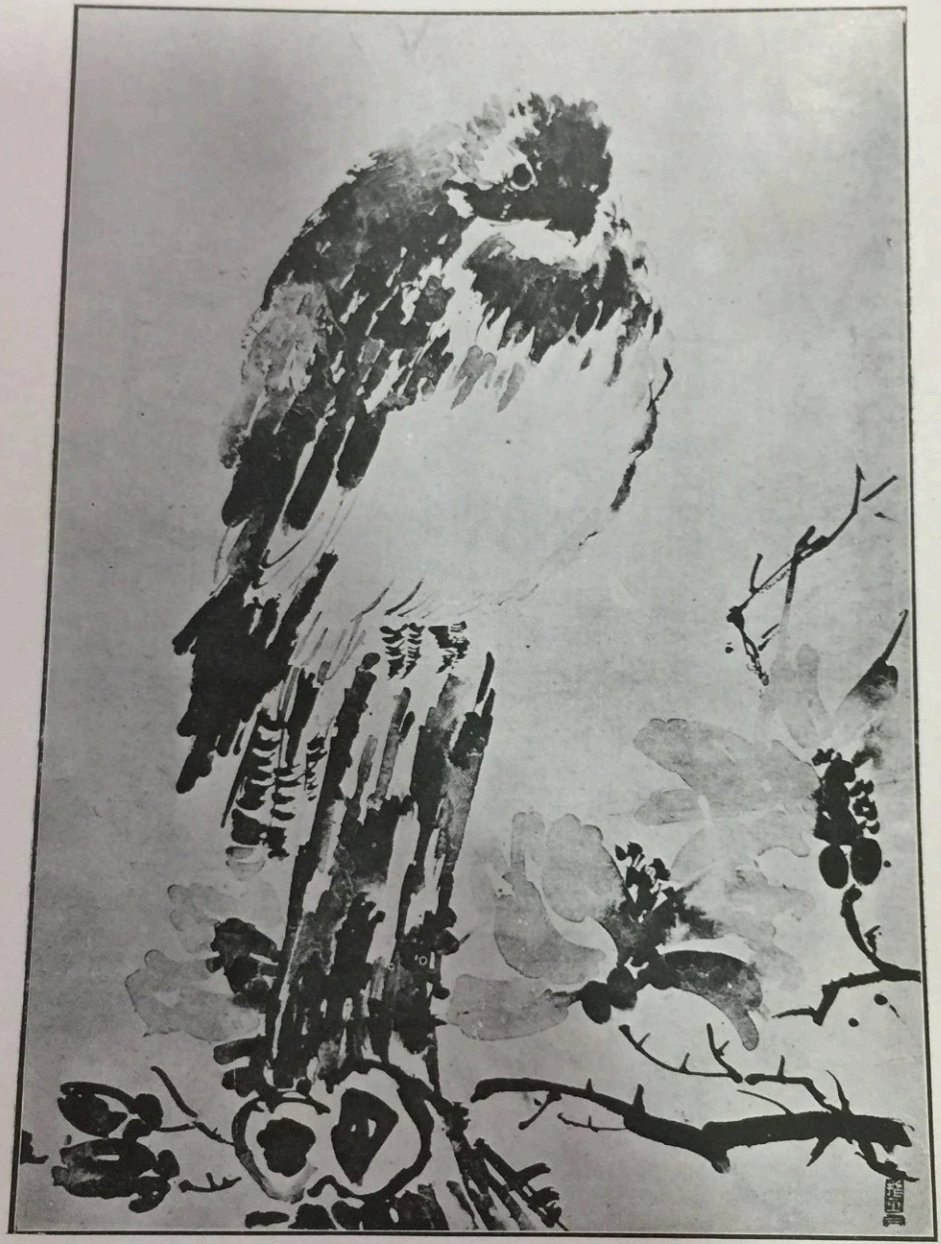

Carl Zigrosser, 1927
