Social Science Discussion Group. Professor Park will leave Peiping for India on Dec. 18; and so the last meeting for the weekly discussion on Social Research will take place next Wednesday. Thus far the group has had nine meetings, and in every meeting dealing with a concrete research project the discussion has been lively and inspirational. In every case Professor Park has given us suggestions with profound insight. The group has not only felt the need of integrating social studies in the University, but has also found possibilities and practicalities of integrating such studies between Tsinghua and Yenching; and between institutions in Peiping and Yenching. Several of our Tsing Hua friends attended these meetings regularly; and the group has had very profitable discussions with friends in Peiping. As a result of these discussions important steps have been taken toward the future planning of social studies in China. Professor Park expects to devote the last meeting to present his own reflections and suggestions for social research in China. In conclusion, members of the discussion group wish to extend their grateful appreciation for his wise advice and unfailing interest in their studies; and they bid him and Mrs. Park *bon voyage* and good health.

The Need of a Gampus Art Club—Suggestion from Mr. Teng Kuei: "I would suggest that a University Art Club is absolutely needed on the campus. Those who know the fact that Mr. Jacob Bien, our student, and his crutches traveled ten miles to view an exhibition in the city, regardless of the time and money he spent, will realize the great hunger for art among students and the pressing need of a University Art Club on the campus. We want to move the current art exhibitions from the city to the campus so we can save the students' and faculty members' time and money from tedious bus rides; we want a permanent University Gallery where we can rest our souls, elevate our thoughts and feed our inspiration; and we also want all sorts of campus art activities developed to enrich our school life. In order to realize this dream we must have an organized body to do the work, to bear responsibility and to promote new events. I would suggest that we call for the enlisting of volunteer promoters during the tea on Monday, and that they then shall work out a membership campaign immediately. With the co-operation of Peking Institute of Fine Arts we shall plan to have twelve to fifteen exhibitions a year, admission to which will be free only to members."

Daily Chapel. The alteration of our schedule has cut the daily chapel period to a minimum. If this period is to mean anything at all to us we must start promptly at 8.45. The Chapel Committees would like to ask for the co-operation of the faculty in releasing their classes immediately the bell rings, for even then it only leaves five minutes to get from classes to chapel. A few minutes "sneaked" by the teacher means either that students and faculty dribble in continuously during the chapel period, or give it up as a bad job and don't come at all. The Committees are doing their best to make the services worth while. May we ask your co-operation in letting out classes promptly when the bell rings?

Copies of Pamphlet. Through the courtesy of Mr. Shuhsi Hsü copies of a pamphlet entitled Appeal by the Chinese Government, Report of the Commission of Enquiry, have been received by Dr. Stuart and are available to those who wish them, by application at this office. There are also several maps accompanying these pamphlets which may be seen by applying to the Department of Geography.

Bulletin Laymen's Appraisal Commission. There is a complete copy of this Report at the President's Office, which may be borrowed by anyone wishing to do so.

Gift for the Ching Ho Hospital. The Committee of the Ching Ho Experiment Center acknowledge with many thanks a gift of $150.00 which has been subscribed by the Honolulu students in Yenching towards the new Ching Ho hospital. The committee are exceedingly grateful for this gift which is an expression of the interest which the Honolulu students are taking in the work which is being done.

Sharpening skates. The Power Station wishes to announce that its machine for sharpening skates has been fixed up and is now ready for use. Skates will be sharpened within one hour during working hours and the charge is 20 cents per pair.

Christinas trees and ***Red flowers*** are on sale at the Green House near the Faculty Tennis Courts.

Luce Pavilion—Since the kitchen facilities at the Luce Pavilion have been enlarged and improved, it is now possible to reserve the hall for special lunches and dinners, if the group consists of ten or more. This arrangement is designed especially to serve student clubs and informal gatherings, but faculty members are also cordially invited. The Pavilion can serve as many as thirty at a lunch or dinner. A telephone is being installed.
